- To provide meaningful results and to protect the privacy of individual students, no data are reported if the number of students is less than ten or if all students would be reported in the same category (e.g., the same Achievement Level). A dash (—) appears when data are suppressed.
- Percentages may not add to 100 due to rounding.
- Achievement Levels 3-5 are grouped together for comparison, since the percentage of students scoring at or above satisfactory is necessary for accountability reporting.
- Points earned by content area should not be compared across administrations.
